fukuyama takaaki	ando takatoshi	Earthquake risk and risk management in the Animal Handling Business	The purpose of this study is to examine the current disaster prevention strategies that the Type 1 animal handling business requires for the improvement of risk management. A questionnaire survey targeted the Type 1 animal handling business in Tokyo and heavily damaged Miyagi and Kumamoto prefectures hit by strong earthquakes. The findings revealed the potential seismic risks as well as the risk source leading to further risks, presenting the concrete risk management measures to be taken.
